

# MORTGAGE REPAYMENT COVER

## What is Mortgage Repayment Cover?

Mortgage Repayment Cover is an insurance that pays you monthly amounts to cover your mortgage, rent or to compensate you for lost income if you become disabled as a result of illness or injury.

## Why do you need Mortgage Repayment Cover?

Making sure your mortgage repayments or rental obligations are protected makes sense. Mortgage Repayment Cover helps relieve the financial responsibility of having to pay your mortgage or rent if you become totally disabled and can no longer earn an income.

## How does it work?

You can choose to cover up to 115% of your mortgage or rent, or up to 45% of your income. This means that your cover will not only pay your mortgage or rent, but can help cover additional expenses such as:

- › home and contents insurance
- › rates

If the sum insured is greater than \$7,500, any other benefits received (or entitled to be received) as a result of the same disability will be deducted from the amount paid.

### If you're still not sure, ask yourself.

If I became ill or had an accident which meant I could no longer work could I afford to pay my mortgage repayments or rental obligations without any income?
