

TRAUMA COVER

What is Trauma Cover?

Trauma Cover is an insurance that pays you a lump sum amount if you or a key person suffers from a defined serious illness or condition.

Why do you need Trauma Cover?

On-going improvements and advancements in modern medicine mean you have a greater chance of surviving a serious illness or condition but the financial impact it can have on your business can be significant. Having Trauma Cover in place can help minimise the financial impact.

How does it work?

A lump sum amount is payable if you or a key person in your business suffers from one of the defined conditions. Some examples of how this money can help are:

- › a cash injection to help your business continue operating
- › clearing business debt or loans
- › recruitment costs to find a replacement person
- › succession planning
- › executing a buy/sell agreement.
